## PUT THEIR CASE UP TO WILSON

### Americans In Mexico Forward Pro- test To Washington

### Mexican Decrees Make American Oil Business Impossible

Washington, May 29.—Carranza's latest note to the United States, demanding a withdrawal of the American forces from northern Mexico, will reach Washington some time today. The Mexican embassy was advised that Manuel Mendez, an official of the Mexican foreign office, is nearing Washington. As soon as possible after the note is received and translated, it will be presented to Secretary of State Lansing by Eliseo Arredondo, the Mexican ambassador designate.

A protest was received at the White House reporting serious difficulties between American oil operators at Tampico and the Mexican authorities.

The protest came in the form of a telegram addressed to President Wilson by eighty-four citizens residing at Tampico, who had held a mass meeting and determined to lay their case before the government. They declared that Mexican military officials were promulgating decrees designed to make it impossible for Americans to do business in the country, and told how one of their number had been arrested because he refused to pay his employees wages fixed by the authorities in excess of terms previously agreed upon with the men.

The signers of the message asserted their right to protection from the American government, and announced their determination not to comply with arbitrary and confiscatory orders and decrees by the Mexicans.

White House officials sent the protest to the state department for investigation.

Other complaints already have been received regarding recent decrees by the Carranza government, and it is probable that there will be representations on the subject just as soon as the controversy over the presence of American troops in Mexico is adjusted.

### WAITE SATISFIED WITH THE VERDICT

### Convicted Murderer Does Not Wish an Appeal.

New York, May 29.—If Dr. Arthur Warren Waite, the dentist who was convicted of the murder of his father-in-law, John Peck, showed any signs of a breakdown after his trial, all such signs have passed away. He spent the time in his cell, calm and cheerful, but with nothing to say. Sunday Waite attended service in the chapel in the Tombs. In the afternoon Waite attended a Christian Science lecture held in the Tombs. Throughout both services he showed no signs of self-consciousness or nervousness. He has a good singing voice and used it heartily in all the hymns.

The convicted man's wife, who was also on his list of intended victims, remained indoors all day at the home of Mrs. Tobey, where she is visiting. She would see no one, but the family said she was in good spirits. Waite will be sentenced to death June 1.

Waite declares he is satisfied with the verdict and wishes no appeal in his behalf.

While taking the steering wheel from his daughter the machine skidded and turned over. Five other occupants of the car were bruised and slightly injured. They were Mr. and Mrs. Howard C. Adams, Mr. and Mrs. L. C. Sherry and W. F. Shyrock.

## HARDING'S KEYNOTE SPEECH A PLEA FOR PEACE

Washington, May 29.—Senator Harding's keynote address at the Republican national convention will be an oration in behalf of peace. It will be a plea for a complete reunion and future co-ordination of the elements of the Republican party that have been in discord. In it he voices in the most appealing way the desire of politicians of all shades of opinion that the old bitterness shall not be carried into this year's campaign and offers the most cordial invitation for the return of those Progressives who left the reservation in 1912.

A vigorous program of preparedness is advocated by the senator, and linked with it is a forcible argument for national industrial self-reliance

under a protective tariff. The keynote is declared by the few who have read it to be Americanism pitched on the highest plane. It contains over 5,000 words.

Toronto Votes Dry. Steubenville, O., May 29.—Toronto, a town of 5,000, north of here, voted dry in a local election by a vote of 482 to 451, giving the dries a majority of 31. The town has been dry three years.

## MEN PICKED FOR IMPORTANT PLACES IN REPUBLICAN CONVENTION

A tentative program arranged for the Republican national convention provided for the election as permanent chairman of Senator Lodge of Massachusetts, Senator Borah of Idaho, Governor Whitman of New York or ex-Governor Hadley of Missouri. Later the choice seemed to narrow down to Senator Borah, with Senator Lodge as chairman of the committee on resolutions, which drafts the plat-

form, and Governor Whitman designated to place the name of Justice Hughes in nomination before the convention. The designations of Senator Lodge and Governor Whitman have not been changed, it is said, but Senator Borah may go on the committee on resolutions and become Mr. Lodge's principal lieutenant on the floor of the convention. The name of Governor Whitman was suggested for the vice

presidency should the nomination for the presidency go to a western man, but Governor Whitman discounted such reports, as he is an open and strong advocate of Justice Hughes. Nos. 1 and 4, exterior and interior, Republican national convention in Coliseum, Chicago; No. 2, Senator Borah; No. 3, Senator Lodge; No. 5, Governor Whitman.

Washington, May 29.—According to an inside tip, Newton D. Baker, in his keynote speech at the Ohio Democratic state convention next Thursday, will go the full length in commending Senator Atlee Pomerene as a faithful and efficient public servant.

The suggestion that Senator Pomerene should be specifically indorsed in the keynote speech is said to come from President Wilson himself. Secretary Baker will leave for Ohio Wednesday.

## CARRANZA TROOPS REPLACE AMERICANS

### Explanation of Movement of Soldiers Into Chihuahua.

El Paso, Tex., May 29.—Major George T. Langhorne and his two troops of the Eighth cavalry returned here from their chase after Glenn Springs bandits into Mexico. They left Fort Bliss three weeks ago, following receipt of news of the raid by Mexican bandits on Boquillas and Glenn Springs, and while away chased the bandits more than 125 miles into Mexico, rescued Jesse Deemer, an American citizen, and two of his employees, killed two bandits and captured four others, two of whom were wounded. Major Langhorne and his men were relieved of duty in the "Big Bend" region by the Sixth cavalry, which reached there a week ago.

General Funston considered the military situation such as to warrant the relief of Major Langhorne's command, so that it might return to El Paso at this time, when Carranza's troops in such large numbers are being concentrated south of Juarez and to the east and west of the border town opposite El Paso.

The Carranza explanation of the movement of 10,000 Carranza troops into the state of Chihuahua is that they are to "replace" the American troops now occupying a portion of the Mexican state under command of General Pershing, although the American forces have not signified their intention as yet of giving up their places to the Carranza troops.

Officials of the war department are awaiting with interest the outcome of the conference arranged between Brigadier General Pershing and General Gavira, Carranza's military commander in northern Chihuahua, which will consider proposals for closer military co-operation between the American and Mexican forces in pursuit of the bandits. General Funston reported to the war department that he had been advised by General Pershing that the conferences would begin at Casas Grandes on Wednesday or Thursday.

Wilmington, Del., May 29.—By a collision of two autos south of this city William H. Shea, salesman, was instantly killed, and three others were injured.
